

BUSINESS ANALYST · ERP CONSULTANT

Business & ERP Solutions.

Integration, automation, and practical systems that help teams work with more clarity and less manual effort.

Trivandrum, Kerala · namadmohammed0@gmail.com · +91 62384 14128

ABOUT ME

Connecting business needs with systems.

Business Analyst with experience in ERP integration, business process improvement, and automation. I work across business requirements, SAP ERP, SQL/HANA, third-party integrations, reporting, and user support.

I make the path from business need to system solution clear, testable, and useful.

WHAT I DO

Business Analysis	SAP / ERP	Integration
Data & SQL	Automation	Solution Delivery

SELECTED PROJECTS

Relevant work, *clearly presented.*

01

SAP ↔ Unicommerce

Connected SAP ERP workflows with a third-party commerce platform through integration, data mapping, and process coordination.

SAP Integration Data mapping

02

SAP + BEAS Manufacturing

Supported manufacturing operations with BEAS production flows, inventory visibility, and reliable issue and receipt transactions.

SAP B1 BEAS Manufacturing

03

WMS / FEFO / Picklist

Improved warehouse-facing processes with clearer item movement, picking logic, and operational reporting.

WMS FEFO Picklist

04

SAP Web / Mobile Portal

Built SAP-integrated portals and mobile workflows that made Sales, Purchase, Inventory, and Expense operations easier to access.

Portals Mobile Workflow

05

SQL / HANA Reporting

Created stored procedures, validation logic, and reports that helped teams reach reliable operational insight faster.

SQL HANA Reporting

06

E-Invoicing / Automation

Implemented process automation and e-invoicing solutions to reduce manual work and accelerate Accounts Receivable processing.

Automation E-invoicing AR

07

SAP ↔ Telegram Automation with n8n

Personal project exploring automated SAP-to-Telegram integration with n8n for notifications, workflow triggers, and faster operational communication.

n8n SAP Telegram

INTEGRATION & ARCHITECTURE

Systems that
connect.

01	REST APIs	02	SAP Service Layer
03	System Integration	04	Event-Driven Architecture
05	Pub/Sub	06	Microservices

BUSINESS ANALYSIS

From questions
to action.

01	Requirements	02	Process Mapping
03	Gap Analysis	04	Functional Documentation
05	UAT	06	Defect Management

PROFESSIONAL JOURNEY · PRESENT TO PAST

2024 — Present Business Analyst Team Lead FieldNXT Pvt. Ltd Team leadership · SAP integrations · BEAS · Automation	2023 — 2024 SAP Business One Functional Consultant Indus Novature Softech Pvt. Ltd SAP B1 · Functional consulting · UAT · Documentation	2020 — 2022 Financial Analyst CA Asha Zachariah & Co Financial analysis · Reporting · Data validation · Audit support	2015 — 2020 Accountant / Audit Executive CA Alex Kuriakose & Co Accounting · Reconciliation · Financial controls · Audit
---	--	--	---

IMPACT

45% · 10–15 hrs/week · 50% · 30%

SAP license dependency reduction · workflow automation savings · reconciliation time reduction · lower downtime and data transfer latency
